D A D E, 1664.

A Description of the four Quarters of the year,
And first of Winter.

Sol in winter.

Winter Quarter (after the Astronomers account) begins the 11. of Decemb: 1663. at six of the Clock in the afternoon, and continues until the 29. of March 1664. so that alwayes the first part of the Astronomical Winter is in one Politick year, and the latter end thereof is in the other; at which time was the shortest day of the year, by reason of the Suns greatest declination from the Equinoctial-Line.

This season of its own disposition is known to be cold and moist, contrary to the quality of the Summer; and in this Quarter, the inward parts of man are very hot, and being healthful may receive plenty of Food, because natural heat is now comforted, and is gone inward, and there increased, & maketh digestion the better.

How the Weather will be therein disposed, is noted for each day throughout the Quarter.

The Sickneses that accompany this quarter, whereunto many will be grieved, are these, and such like, namely Pain in the Stomach, Lasks of sandy Urine, Catarrhs, Schistages, the Colick and Black-Pollax, Falling-Sickness, Diseases proceeding of

A Prognostication.

rottenesse and corrupt humours, thin
Rheumes, Coughs, Head-ach, with diuers
firmities incident among Women.

Of the Second Quarter of the year, called
the Spring, Sol in γ . 8. π .

The Spring time (being the most pleasant
and wholsome Season of the year) takes
its beginning on Wednesday the 9 of March
just at Sun set, when the Sun entreteth into
the first minute of Aries, the Equinoctial
Signe, making the dayes and nights of equal
length, which quarter endeth the 10. of June,
when the Sun entreteth into Cancer.

This Season is naturally hot and moist, and
is of the Sanguine complexion. being the
most temperate and healthful time of the year,
and is therefore accounted the fittest time to
cure diseased bodies in, and to restore health
again in those in whom formerly it hath been
decaied by any kinde of evacuation.

The particular condition thereof may be
seen in the daily disposition of the season.

The Infirmities of this Quarter are Pe-
lancholly, Madnes, the falling-sickness,
Bleeding at the Nose, Hoarsnes, Coughs,
Scabs, Agues Chelick, Gout, pain in the
loyns, Blurries, Shortnes of Breath,
Faintings, gales in the Eyes, Burning
Fevers, & other proceedings of corrupt blood.

of

Of the third Quarter of the year, called
Summer, Sol in \odot . α . γ .

Summer (the third quarter of the year **A**-
Stronomical) taketh alwayes its beginning
at the Sunns entrance into the first degree of
Cancer, which is this year upon the 10 day
of Iune, being Friday at nine of the clock at
night, at which time he makes his greatest
declination from the Equinoctial towards the
North and causeth the longest day, and short-
est night in the year and so Summer hold-
eth on till the 12 of September following.

The predominant qualities of this season
(according to its proper nature) are heat and
dryness, spreading them abroad in each part
of the body.

As for the disposition of the weather, you
may see in the daily inclination.

The Sickneses generally of this Season,
are hot fevers, frenzies, Scabs, Pusles,
Jaundies, soar mouth and throat, with pains
in the Head and back, where with many will
be molested.

Of the fourth Quarter of the year, called
Autumne, or fall of the Leaf,
Sol in \odot . μ . γ .

Autumne or Harbest (being the fourth
and last Quarter of the year) beginneth

A Prognostication.

on Saturday the 10. of December, at 11 a clock and 47 min. at night, the Sun then making his entrance into the first minute of the second Equinoctial sign Libra, working the same effect that he did at his entering into Aries; that is, making the days and nights of equal length, he rising at six in the morning, and setting at six at night; and this quarter lasts till the 10 of December following.

The quality of this season is naturally cold and dry; yet by reason of its mutability, it is the most unwholesome, by means whereof it is more subject to sickness then any other; for the diseases of all Diseases of the former part of the year, will now burst forth and be seen.

The Air is like to be infected a l Harbell, may be seen in the daily disposition of the Weather.

The Diseases of this Quarter are like to be many and dangerous, as Black Jaundies, Fevers, the falling-sickness, Opilations in the Spleen, difficulty of breathing, Convulsions, Dropsies, Deliriums, Wiles, Tooth-ach, and many more; from which good Lord deliver us.

Of the Eclipses this year. 1664.

There will be four Eclipses this present year, two of the Sun and two of the Moon; of all which we in England shall only see

At the last, which is a total Eclipse of the Moon.

The first is a small Eclipse of the Sun upon the 18 day of January, in the morning, to be seen only in the North-East parts from us.

The second is a totall Eclipse of the Moon, upon the first day of February, to be seen in Great Tartaria China, Melair, Sandri, Cambala, Japonia, Xicoa, Gilolo, Ceiran, Daru, Simpagna, where it will appear in, and near their Meridian.

The third is a very small Eclipse of the Sun on the 12 of July, which will onely be seen in the remote Southern parts of the World, unknown to us.

The fourth and last is a great Eclipse of the Moon, which will be visible to us in England upon Wednesday the 27 of July late in the evening.

The beginning of this Eclipse will be at 23 min. past 9 a clock at night,

The beginning of total darkness at 37 min. past 10.

The middle at 24 min. past 11 a clock.

The end of total darkness at 12 min. past midnight.

The end and full recovery of Moon-light, at 25 min. past 1 a clock next morning, being the 28 day.

Prognostication.

The Digits eclipsed are 16 and 22 min.
the Moon being near the South.

Upon the 25 of October, about Sun set,
the Planet Mercury comes under the Sun,
and passeth near his center at 7 at night. See
Mr Wings Ephemerides, Part 2 Anno. 1664

Here followeth certain Physical verses, with a
description how the Planets are placed in the
Heavens, either before or after the Sun; whereby
you may perceive how they keep their motions
day and night. To which is annexed the time of
the New, Full, and Quarters of the Moon, with
the daily disposition of the weather. Also short
Rules for Husbandry for every moneth through-
out the year.

Of January.

IF thou be sick and help wouldst have,
The counsel of the Learned crave:
If thou hast health, to keep thee so,
Fly idleness as deadly fo.

Saturn and Venus are in the East at Sun-
rise.

all night.

Mercury attends upon the Sun.

The 1 and 2 days snow.

Full moon on the 1 day 37 min. past 2 a clock
in the afternoon.

The 3 4 and 5, fair and freezing.

The 6 and 7, inconstant.

Last Quarter on Monday the 8 day, 33 min.
past 9 a clock at night.

The 8 and 9, fair and temperate.

The 10 11 12 and 13, indifferent.

The 14 15 and 16, frost-like.

First moon on Wednesday the 17 day, 10
min. past 1 a clock in the morning.

The 17 and 18, some gentle winds.

The 19 20 and 21, variable.

The 22 and 23, fair.

First Quarter on Wednesday the 24 day, 15
min. past 7 a clock in the morning.

The 24 and 25, fair.

The 26 and 27, great winds.

The 28 and 29, good weather.

Februaries Instructions.

This month set Roses, with all other kind
of Plants, cut Ducklets, sow Pease,
and Onions, as in the month before; (the
weather considered) you may now Garden
for Sallet herbs, and such like. Of

DADE. 1664.

Of March.

NOW Bleed and Bathe, if thou desire,
And purge also if need require;
Ill humors do in many breed,
Provide in time before you need.

Saturn is in the South at Sun-rise.

Jupiter is then past the South-East.

Mars is full South-East at Sun-set.

Venus & Mercury are both Morning-stars.

The 1, day cold and cloudy.

Full Moon on Wednesday the 2 day 11 min.
past 2 a clock in the morning.

The 2 and 3, fair and windy.

The 4 5 and 6, indifferent.

The 7 and 8, cold rain or snow.

Last Quarter on Wednesday the 9 day, 22
min. past 5 a clock at night.

The 9 10 and 11, seasonable.

The 12 and 13, fair.

The 14 15 and 16 wind and clouds.

Reb-moon on Thursday the 17 day, 34 min.
past 3 a clock in the afternoon.

The 17 18 and 19, scarce fair.

The 20 and 21 temperate but cloudy.

The 22 and 23, good Spring-weather.

First Quarter on Thursday the 24 day, 58
min past 2 a clock in the afternoon.

The 24 25 and 26 fair and temperate.

The 27 and 28 cloudy.

The 29 and 30, fit for the season.

Full

A Prognostication.

Full moon on Thursday the 31 day, 18 min.
past 2 a clock in the afternoon.

The 31, fair and warme.

Marches Instructions.

This Moneth (in the new of the Moon)
graft set Duck-sets & Wines, cut your Hed-
ges & Wines already growing; also you may
sow Onions, Beans and Dates, and all
manner of Garden-seed.

Of April.

NOW wholesome baths thou maist frequent,
Let blood also and not repent,
These are good means thee to defend,
From Griefs the which on thee attend.

Saturn and Jupiter are somewhat past the
South at Sun-rise.

Mars is South at Sun set.

Venus and Mercury both rise a little before
the Sun.

The 1 and 2 days, fair and warme.

The 3 4 and 5, wind and hail.

The 6 and 7, not much unlike.

Last Quarter on Friday the 8 day, 41 min.
past 12 at noon.

The 8 and 9, some little moisture.

The 10 11 and 12, fair.

The 13 14 and 15, cold and wet.

New Moon on Saturday the 16 day, 43 min.
past 2 a clock in the morning.

The 16 and 17, wind and clouds

The 18 and 19, cool.

The

The 20 & 21, Wind & unconstant weather.
First Quarter on Friday the 22 day, 10
min. past 8 a clock at night.

The 22 23 and 24, fair and warme.

The 25 and 26 a whosome apr.

The 27 28 and 29, fair and windy.

Full Moon on Saturday the 30 day 12 min.
past 3 a clock in the morning.

The 30 day seasonable weather.

In this month pole your Hops, sow Bar-
ley and Strickbecks, Bark Trees for Tan-
ners, sow Wheat & Flax, set Citrons, Melons
and Cucumbers, and su fish and replenish
your Gardens with Summer Herbs.

Of May.

Rise early now this month of May,
And walk the Fields that be so gay,
From surfeiting see thou refrain,
Or soon it will procure thy pain.

Saturn and Jupiter rise before day light end.

Mars is past the Month at Sun-set.

Venus riseth when its bright day.

Mercury may be seen in the West presently
after Sun set.

The 1 and 2 fair weather.

The 3 4 and 5, some clouds and wind.

The 6 and 7, rain.

Last Quarter on Sunday the 8 day, 23 min.
past 6 a clock in the morning.

The 8 and 9, fair and windy

The

A Prognostication

The 10 11 and 12, fair.

The 13 and 14, warme

New Moon on Sunday the 15 day, 23 min.
past 11 a clock before noon.

The 15 and 16, fair.

The 17, 18 and 19, seasonable.

The 20 and 21, very windy.

First Quarter on Sunday the 22 day, 48
min. past 2 a clock in the morning.

The 22 23 and 24, tempestate.

The 25 and 26, some hail.

The 27 and 28, warm.

Full Moon on Whitsunday the 29 day, 4
min. past 5 a clock in the afternoon.

The 29 30 and 31, fair and cloudy.

Mays Instructions.

In the beginning of this month, you may
sow the seeds of Summer Herbs, which can
not endure the cold of the fore-passed months;
you may yet sow Hemp and Flax, weed your
Pot-Gardens, and take away superfluous
Branches, and mow your Gardens.

Of June.

DRinks new or sweet taste not at all,
For thereby grows no danger small:
And to thy self such pastime take,
As may in God thee merry make.

Saturn riseth at Sun-set, & sets at Sun-rise
Jupiter riseth an houre after Saturn, and
sets after Sun rise.

Mars

D A D E. 1664.

Mars is South-West at Sun-set, Venus riseth a little before the Sun, & Mercury sets soon after him.

The 1 and 2 days windy.

The 3 4 and 5, some thunder.

Last Quarter on Monday the 6 day, 6 min. past 9. at night.

The 6 7 and 8, seasonable.

The 9 and 10, warme.

The 11 and 12, seasonable.

Full moon on Monday the 13 day, 53 min. past 6 a clock in the afternoon.

The 13 14 and 15, fair.

The 16 and 17, good weather:

The 18 and 19, cloudy.

First Quarter on Monday the 20 day, 46 min. past 10 a clock in the afternoon.

The 20 and 21, sudden showers of rain.

The 22 23 and 24, moist.

The 25 26 and 27, fair and windy.

Full Moon the 28 being Tuesday 2 min. past 10 a clock in the morning.

The 28 29 and 30, some winds.

Junes Instructions:

In this month (at the fall of the Moon) gather your herbs to keep dry for the whole year; weed your corn-fields and gardens, set Rose-mary and Billy-flowers, sow Nettles, bear them up, the Moon increasing.

Of

A Prognostication.

Of July.

PErfume thy house with savour sweet,
But such as are for purpose meet:
Abroad as thou in Streets doest go,
Defend thy self from Stinks also.

Saturn & Jupiter are in the East at Sun-set.

Mars is at the same time in the West.

Venus and Mercury are too nêr the Sun
to be seen.

The 1 and 2 days fair.

The 3 and 4, very windy, the 5 fair.

Last Quarter on Wednesday the 6 day, 36
min. past 8 a clock in the morning.

The 6 and 7, very seasonable.

The 8 9 and 10, good Bay weather.

The 11 and 12, warm.

New Moon on Wednesday the 13 day, 50
min. past 1 a clock in the morning

The 13 14 and 15, some winds.

The 16 17 and 18, moist clouds.

First Quarter on Tuesday the 19 day, 8
min. past 9 a clock at night.

The 19 20 and 21, indifferen. f.

The 22 and 23, warme.

The 24 25 and 26, thunder like.

Full Moon on Wednesday the 27 day, 38
min. past 11 a clock at night.

The 27 28 and 29, fresh gales.

The 30 and 31, Serene.

July's Instructions.

In this moneth ply your Dapting, follow
your

pour sand for Wheat, pull up Hemp that is ripe, get Rue and Wormwood to dry the away fleas and Mothes; dry flowers in the shade, and then sun them a little, for fear of corruption.

Of August.

AS burning heat Will thee destroy,
So shivering cold will thee annoy:
Let little sleep thee now content,
Purge not, nor bleed, lest thou repent.
Saturn & Jupiter are South at daylight ending.
Mars is in the West at Sun-set.
Venus and Mercury are with the Sun.
The 1 2 and 3 days, fair.
Last Quarter on Thursday the 4 day, 7 min.
past 6 a clock in the afternoon.
The 4 5 and 6, temperate.
The 7 and 8, fair and warme.
The 9 and 10, some fozms.
Full Moon on Thursday the 11 day, 24 min.
past 9 a clock in the forenoon.
The 11 12 and 13, wind and thunder.
The 14 and 15, fair.
The 16 and 17, a fresh breathing ayr.
First Quarter on Thursday the 18 day, 33 min.
past 10 a clock before noon.
The 18 19 and 20, fair and windy.
The 21 22 and 23, seasonable.
The 24 and 25, fit for Harvest.

Full Moon on Friday the 26 day, 7 min. past

A Prognostication.

3 a clock in the afternoon.

The 26, 27, and 28, windy.

The 29, 30 and 31, some drops.

Augusts Instructions.

Reap Wheat and Rye, cut down your
Oats, gather Garden-Seed. sow Lettice,
and other Winter Herbs in the new of the
Moon; use moderate diet, forbear to sleep
presently after meat, take heed of sudden
colds after great heat.

Of September.

RAw fruit, though ripe, may sickness bring,
Unripe much eat, a dangerous thing.

If now a Surfeit thou dost take,

when others sleep, thou must awake

Jupiter follows Saturn in the South at Sunset.

Mars is in the West at the same time.

Venus waits upon the Sun.

Mercury follows him to his rest.

The 1 and 2, days fair.

Last Quarter the 3 day, being Saturday 44
min. past 1 a clock in the morning.

The 4 and 5 rain and thunder.

The 6, 7 and 8, fair.

New Moon on Friday the 9 day, 24 min. past
6 a clock at night.

The 9 and 10 temperate

The 11, 12 and 13, warme and clear.

The 14, 15 and 16, fair and windy.

First Quarter on Saturday the 17 day. 46

D A D E 1664.

mid. past 3 a clock in the morning.

The 17 and 18, hazy.

The 19 20 and 21, fair and windy.

The 22 23 and 24, some hail.

Full Moon on Sunday the 25 day, 48 min.
past 5 a clock in the morning

The 26 and 27, indifferent.

The 28 29 and 30, wind and rain.

Septembers Instructions.

Get Artichokes, sow seeds for Winter-
Proe, gather Hops and Apples and other
Fruits (which are fit to be gathered) about
the Full of the Moon, the weather being
dry. Cut quick sets, sow Wheat and Rye,
hill Beans, make Murtlece, sow Parsneps
and Carrots, remove and set slips of flow-
ers, set Roses, Strawberries, and Bar-
berries, and remove young trees every New
Moon till February.

Of October.

Warme clothes must now provided be,
Also warm meats are good for thee;

Have good regard thy feet be dry,

Thou shalt avoid much harm thereby

Saturn and Jupiter follow one another in the
South-west, presently after Sun set
Mars is in the West at Sun-set.

Venus and Mercury are so near the Sun they
cannot be seen this moneth.

The 1 day fair.

Last Quarter on Sunday the 2 day, 54 min.

C 2

past

A Prognostication.

past 8 of the clock in the morning.

The 2 3 and 4, fair.

The 5 and 6, hail and cold.

The 7 and 8, fair and warme.

New Moon on Sunday the 9 day, 30 min past
5 a clock in the morning.

The 9 and 10, temperate.

The 11 12 13, gentle winds.

The 14 and 15, pretty fair.

First Quarter on Sunday the 16 day 57 min
past 11 a clock at night.

The 16 17 and 18 fair and warme.

The 19 and 20 turbulent.

The 21 22 and 23, reasonable.

Full Moon on Sunday the 24 day, 24 min.
past 7 a clock at night.

The 24 25 and 26 cold and stormy.

The 27 and 28, more mild.

The 29 and 30, fair.

Last Quarter on Sunday the 31 day, 24 min,
past 4 at night.

The 31 fair and freezing.

Octobers Instructions.

Remove young Plants and Trees in the new
of the moon, and about the full of the Moon ga-
ther such fruit as you left ungathered the last
month; set all kinde of Farts and Scours, and
cut your Rose-trees but once in this yeare, if you
intend to have store of Roses.

Of November.

IF Rheumes do now molest thy head,
It is now ill to sweat in bed,
Feed on good meats if stomach serve,
Bite teck for that which doth prekeve.

DADE. 1664.

Saturn, Jupiter, Mars, and Venus, are all in the West at Sun-set.

Mercury riseth a little before the Sun.

The 1 2 and 3 daye temperate.

The 4 5 and 6 cold.

New Moon on Monday the 7 day, 16 minutes past 7 a clock at night.

The 7 8 and 9, fair and temperate.

The 10 and 11, warme.

The 12 13 and 14 remission of cold.

First Quarter on Tuesday the 15 day, 15 minutes past 9 a clock at night.

The 15 and 16 fair and warme.

The 17 18 and 19, wind and rain.

The 20 21 and 22 clearing up.

Full Moon on Wednesday the 23 day, 57 minutes past 7 a clock in the morning.

The 23 24 and 25, cloudy.

The 26 and 27 seasonable.

The 28 and 29, showers.

Last Quarter on Wednesday the 30 day, 7 minutes past 1 in the morning.

The 30 fair.

Novembers Instructions.

In the New of the Moon remove young trees, set Crab-tree Stocks to graft on, and in the mid of the Moon set Pease and Beans, sow Parsneps and Carrots, make Hault, kill hogs, and make Martins Wee.

Of December.

Now cold December is come in,
The poor Mans back is clothed thin,
Then feed and cloathe him as you may,
The Lord will it three fold repay.

Salm.

A Prognostication.

Sature is now with the Sun.

Jupiter, Mars and Venus, are in the West at Sun set.

The Moon keeps close with the Sun.

The 1 2 and 3 fair and seasonable.

The 4 5 and 6, indifferent.

Full Moon on Wednesday the 7 day, at 12 of the clock at noon.

The 7 8 and 9 good weather.

The 10 11 and 12, store of snow.

The 13 and 14 indifferent.

First Quarter on Thursday the 15 day, 23 min. past 5 a clock at night.

The 15 16 and 17, cold rain or snow.

The 18 and 19, scarce fair.

The 20 and 21, temperate.

Full Moon on Thursday the 22 day, 34 min. past 7 a clock at night.

The 22 23 and 24 wind and clouds.

The 25 and 26 fair.

The 27 and 28, rough air.

Last Quarter on Thursday the 29 day 30 min. past 11 a clock in the forenoon.

The 29 30 and 31 freezing.

Decembers Instructions.

This month and the next are best to sell great quantities of the skin of the Moon; moreover the rest of your fruit trees, felloe land for barley, other herbs from cold loam well to your cattle, take fields with straw, or lime stags.

The

The Distance of the Seven Planets
from the Earth, in English miles.

seven hundred and eight thousand, seven hun-
dred and fifty miles.

Jupiter is removed from the earth, twenty six
millions, thirty thousand, nine hundred and
twenty miles.

Mars is distant from the Earth seven milli-
ons, six hundred fifty eight thousand, five hun-
dred and forty miles.

The Sun is distant from the Earth, five mil-
lions, and twenty two thousand, three hundred
and three miles.

Venus and Mercury (in their mean motions)
are distant as the Sun though sometimes they
are far nearer, and sometimes again farther re-
moved.

The Moon is distant from the Earth, two
hundred and eight thousand, two hundred and
ninety miles.

Psal. 19. 1.

The Heavens declare the glory of God, and the Firmament
sheweth his handy-work.

A Prognostication.
